6th European Pressure Equipment Conference

One year after the
EU east extension

Symposium
June 8 – 9, 2005
Munich

Introduction

One year after the EU east extension the 6th conference in our series of symposiums offers recent practical examples of the application of the Pressure Equipment Directive on a national and international level.

At the European Pressure Equipment Conference the latest developments in operational requirements will be presented more than two years after the German Operational Safety Regulations (Betriebssicherheitsverordnung) have come into force, and practical examples will be discussed to illustrate their effects.

The conference addresses

- Pressure equipment manufacturers
- Manufacturers in plant and pipeline construction
- Operators of small to large-scale plants
- Planning companies / engineering companies
- Technical consultants
- Testing and inspection organisations

Exhibition

In connection with the conference there will be an exhibition of manufacturers and operators, where you will be able to present your products.
